SANJANA DESHMUKH

Projects

● E-Learning and management system(2024)

Technologies: MERN Stack

- Developed a platform enabling students to **access and interact** with course materials and **clarify doubts remotely**.
- Implemented **user authentication** and **role-based access control** for students and instructors.
- Optimized **database queries**, reducing page load times by **30%**.

○ E-Health Card and Advisory system(2022)

Technologies: HTML, CSS, ASP.Net, MySQL

- Created a web app providing **doorstep medical services**, streamlining **healthcare access for users**.
- Integrated real-time appointment booking and notifications, enhancing user convenience.

Internship

Websoft Infotech

Web Developer

05/01/24-05/07/24

- Developed a MERN stack-based online learning portal, improving **user engagement by 25%** and platform security for **1,000+ users**.
- Integrated **RESTful APIs**, reducing data retrieval time by **40%**, and decreasing errors by **30%**.
- **Collaborated** cross-functionally, delivering the project **two weeks ahead** of schedule.

AVIPL

Web Developer

15/07/21-15/01/22

- Led the Codesandbots project, teaching kids coding and robotics, utilizing the MERN stack, and managing a team of 24 members.
- Successfully delivered the project on schedule despite COVID-19 challenges, with the homepage design completed in just 3 days.
- Oversaw 24 members across frontend, backend, and design, achieving all project goals.

Achievements

- Received the **8th Merit Award** from Sant Gadge Baba Amravati University upon graduation.
- Achieved the best **Anchor** award during the college Annual Function.
- Secured **1st Rank** for outstanding error debugging at "Trident Techo Event 2022."
